

IP Factly presents... 25 Top Predators in the World! Amazing facts, photos and video links to the worlds most effective killers. Aimed mainly at the 8+ age range, its a fun and fascinating way for newly and not so newly independent readers to find out more about apex predators. Books by IP Factly have been #1 kindle bestsellers because they present animals in a fun and entertaining way - mixing facts, photos and video clips. IP Factlys Amazing Animal series has been designed to encourage and bolster independent reading. Accompanying webpages with video clips This book provides fact after fact for information hungry children to tell family and friends, and even has accompanying webpages with video clips of all the animals in action. It makes learning fun and gives a real reason for children to want to read by themselves. Kids will love discovering animal facts to share and enjoy. The Amazing Animals range encourages children along the path to truly independent reading and learning. See for yourself by clicking on the front cover to look inside the book. This book is great for newly independent readers and not-so-newly independent readers alike. Difficult words are explained and fascinating facts are explored. Video Links The animals are accompanied by pictures and facts plus video links so children can see the animals and how they behave. The video links mean children come back again and again, naturally developing their reading and learning skills. Reviews for other IP Factly books 5.0 out of 5 stars Fabulous Little Book By Spudman (Pasadena, MD United States) (VINE VOICE) (TOP 100 REVIEWER) This review is from: The 25 Weirdest Animals in the World! I downloaded this book on a whim and am glad I did. The animals featured are fascinating, as are the accompanying photos. I really like the links to videos at the end of each segment. Readers learn the habitat, diet and description of each creature. Young readers will certainly enjoy this book. Even this older reader was entertained by it. 5.0 out of 5 stars My son loves this book! By K. Smith Taaa! (St. Louis, MO) This review is from: 25 of the Most Poisonous Animals in the World! This book is really cool. It is part of a series of books 25 of the most _____ in the world. It gives a great description of the animal, what it does, lives, eats, ect. But at the end of each animal, there is a link to click on and it will take you to a webpage with videos of the animal. My son will read this book and watch the videos for hours on end. This is a really great education tool. The concept is fabulous! I highly suggest buying this book for your kiddo. My son and I have so much fun watching and reading this together. You or your kid will not be dissapointed. 5.0 out of 5 stars Great book for budding young scientists! By sparklewoman (Eureka, CA) This review is from: The 25 Weirdest Animals in the World! I really really enjoyed this book even though its really written for kids, because its not dumbed down and even an oldster like me can learn something. The links to the videos work great on my Kindle Fire HD and provide a great multimedia experience. I plan to check out their other books and am hoping I can find an app for our nieces smartphone so she can share these great and fun educational resources with our grandmothers.
