Everyone of them has been great but his favorites are the shark book and this one about whales. He talks to everyone we meet now and tells them everything he has learned in this book about Orca Whales and the Blue Whale. Great books for kids who are interested in animals. 4.0 out of 5 stars Free Willy February 24, 2014 By Nelly T. Format:Kindle Edition Amazon Verified Purchase Okay, this might sound funny but I actually bought this one for myself! Yes, even adults love to learn about their favourite animals too you know! Do you know the movie FREE WILLY? Well, thatâ€™s when I started to love whales.. they all look so cute and friendly you wanna ride them all day. Haha! Up until now I am still fascinated every time I learn a thing or two with whales and I just want to thank the author for doing such a great job promoting books about animals. 5.0 out of 5 stars Youve got to get all the books in this series! February 21, 2014 By Mateo Format:Kindle Edition Amazon Verified Purchase This is my second childrens picture and fact book from this author, and they have both been great! Both my 5 year old and 9 year old love them. Great pictures and funny, informational facts. Cant wait to read them all the others! 5.0 out of 5 stars Perfect Book For My 6 Year Old! February 17, 2014 By Robert Watson Format:Kindle Edition My daughter has been fascinated with whales since our trip to Sea World. The book has a very good balance between facts and photos of different whale species. I would recommend this book to any child that is fascinated with marine life!
