

Diagnosing the Heart of Your Church challenges you to take a hard look at the systemic health of your church. It alerts you to areas of church life that need strengthening. It helps you recognize if you simply have a problem in one area or if an unseen infection has spread through your church body. Its designed to help you ask the right questions, questions leaders need to discuss candidly. Most importantly it offers you a tool to assess your congregation's true health. What does assessing systemic corporate dysfunction mean? It means going beyond the apparent condition of your church. Systemic functioning relates to spiritual and relational dynamics that operate behind the scenes (and have operated historically) in the body of a church. When we talk about measuring or diagnosing the level of "systemic health" we assess things that tend to spread through and affect the whole congregational body. These dynamics will reshape the culture of a church if they go unattended. Many pastors and church leaders ignore the ramifications of such underlying spiritual and relational issues. Such grave oversight (or perhaps better, "under-sight") always proves costly. Mark will challenge you to evaluate your church in five key areas that are the true measure of corporate spiritual health, diagnose your situation in a much more biblical way, and offer biblical responses to what you may discover. . . - Dr. Kenneth Quick, author of *Healing the Heart of Your Church* Rev. Mark Barnard serves as President of Blessing Point Ministries, which works to heal churches that have been wounded by painful crises. Mark has a BA in Bible and an MA in Pastoral Studies. He authored of *The Path of Revival* and coauthored *The Eighth Letter* as well as the *Healing the Heart of Your Church Facilitator's Guide*. Mark previously served in a variety of pastoral and teaching roles. He, his wife Jeannie, and their children reside in Peachtree City, GA.
