

ONE explores our connectedness “ as a people, as a race, as spiritual beings incarnated together on this increasingly tiny planet. This beautiful, warm and engaging work reads like a conversation with an old friend who encourages each of us to recognize and rediscover the light within us. The wise lessons of our Indian forbears coupled with the wisdom of Ghandi and many of our wisest souls are synthesized here to present a unique and loving perspective of our lives, our eventual deaths and our singularly unprecedented place in Earth’s history. ONE examines our deepest fears of transitioning to the “other side” once our lessons here have been learned and reassures us that death is simply a doorway leading back to the place we all call home. It speaks of karma, reincarnation and spiritual growth in a simple but profoundly engaging manner by connecting the gaps in our experiences and bringing a deeper meaning to the lives we choose. The reader comes away with a much more optimistic and centered sense of self and place and a new perspective on what it means to be truly human and truly engaged “ but most importantly, a sense of being ONE with all of creation.
