Introduction When I tell you offhand to give me your immediate response the moment you  
hear the word Honeybee, your response is going to be "honey", about 99.9% of the time.  
And then after that, you are going to say "beeswax." But the product of a beehive is not  
restricted to just these two items. It also has royal jelly, pollen, and propolis. All of these  
products have traditionally been in use by mankind for the propagation of good health, beauty,  
and products in use around the house and as a health food for millenniums, going back to  
prehistoric times. So this book is going to tell you all about how you are going to be  
introduced to bees, and if you are enterprising enough to keep them in your backyard, you are  
soon going to be called an apiarist, keeping a number of your hives in your apiary.
