It explores the city's impact on how we make and consume all types of culture—art, music, literature, architecture, film, and more—not only illustrating the effects the urban environment has on the production of culture, but, at times, how culture has influenced the city. Theoretically diverse, Urban Culture employs the major theoretical perspectives in sociology and the major paradigms in Urban Sociology and Urban Studies: Urban Ecology, Marxism, New Urbanism, Socio-Psychological Perspective, Structuralists/Econometrics, and Urban Elites/ Entrepreneurs. Urban Terrorism is also addressed to provide a timely examination of the cultural impact and sociological effects of terrorism in an urban setting.
